DETAILED ACTION

An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed.

Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

Applicant is advised of the availability of the publication "Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office." This publication is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in UK on 11-25-2002. It is noted, however, that applicant has not filed a certified copy of the UK application as required by 35 U.S.C. 119(b).

Claim Objections

Claims 5 and 6 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 5 and 6 are not been further treated on the merits.

Claim Rejections - 35 USC § 112

Art Unit: 3751

Claims 1-4 and 7-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regard to claim 1, Applicant's use of alternate language (i.e. "or") on lines 5 and 7 renders the claim indefinite.

In regard to claim 10, claim 10 fails to set forth any defining elements and reference only to the accompanying drawings is improper and renders the claim indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 10 is rejected under 35 U.S.C. 102(b) as being anticipated by Malicay.

The Malicay reference discloses a bag holder as described by its accompanying drawings.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Rooker and Deuel references pertain to bag fillers with associated funnels and framework.

Claims 1-4 and 7-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
